

DECLARATION OF CONFORMITY

ARTIC INDUSTRIAL QUIMICA SA certifies as a manufacturer:

Paint:

CONDENSTOP. Thermal, acoustic and anti-condensation insulating coating.

Intended uses for this report:

Thanks to its low thermal conductivity, it acts as a thermal insulator. It also maintains surfaces at a suitable temperature, preventing thermal shock that causes condensation indoors.

Limitations:

It is not passable.

According to several Standardized Standards related to the functionality of the paint and carrying out several tests in the specialized and accredited laboratories of APLLUS (LGAI TECHNOLOGICAL CENTER), the following results and features are offered:

Essential features	Benefits	Test standard
Temperature reduction on fiber cement (at 34°C ambient)	6°C	UNE-EN ISO 12543-4:1998
Reduction of heat flow over fiber cement (at 34°C ambient)	81.4%	UNE-EN ISO 12543-4:1998
Thermal conductivity (600 microns on mineral substrate)	0.194 W/m-K	UNE-EN 12664:2002

And to attest to this, this document is issued and signed in Balaguer on October 30, 2025.
